To Whom it may concern:

In regards to the litigation letter we just received. We are under the understanding that wells used for domestic use only and watering less than 2 acre are free from this litigation order. Since our pump waters only our lawn, garden and raspberries and the total coverage is less than 2 acre we were told by our local water master that we are OK. If we have been misinformed and have to shut off our garden pump any way please let us know immediately so we can find another way to save our lawn and garden.
